## AT LINDAL WINDOWS, WE'RE NOT MAKING JUST ANOTHER WINDOW. WE'RE MAKING YOUR WINDOW.

Crafted to make your dreams a reality, each window invites natural light and embraces outdoor beauty to enhance the design of every room in your home.

We customize each window to your distinct taste and needs, giving you the finest options in solid wood or wood clad windows. Recognized as a natural insulator, clear Douglas Fir is the wood of choice for our solid wood windows since it's stronger and denser than softer woods. As an alternative, our Affinity wood clad windows combine the traditional beauty of a solid wood interior with a weather-resistant, low maintenance vinyl exterior. There are many choices, giving you the ability to combine style and function.

No matter which window you select, we'll work to meet your expectations. And exceed them every chance we get.

*"Since my office and home are on the same property, my home has become my portfolio. Everyone comments on the warmth and beauty of my wood windows. I would never hesitate to recommend the high quality of your products and service, as my experience as a homeowner, contractor and designer have all been excellent."*
